WHEELCHAIR ASSESSMENTS

Alfreda is always on the *go*.

Now she sits in comfort with a wheelchair customized for her mobility needs.

Do You Use a Wheelchair?

Easter Seals specializes in matching your mobility needs with a wheelchair that is tailored for you. We give personalized, individual attention to evaluate you for the proper size wheelchair and the seating options that will best meet your needs.

Our experienced therapy and assistive technology staff will assess your current mobility device and discuss your needs, then make recommendations for a wheelchair and seating system which will maximize your seating comfort, maintain your posture, and help keep your skin healthy by distributing pressure. We even have a state of the art pressure mapping system that visually identifies any potential problem areas that may cause skin breakdown.

Easter Seals offers Seating Assessments in all three counties in Delaware and in Salisbury, Maryland. Wheelchair assessments are typically covered by insurance, with a doctor's prescription. Our staff will write a comprehensive report, with recommendations and equipment justification which can be submitted to the insurance company.

We accept Medicare, Medicaid and most commercial insurance plans.

For more information, or to schedule an appointment, call 1-800-677-3800.
