Part X, Line 2:

ASC guidance clarifies the accounting for income taxes by prescribing the
minimum recognition threshold an income tax position is required to meet
before being recognized in the financial statements and applies to all
income tax positions. Each income tax position is assessed using a two
step process. A determination is first made as to whether it is more
likely than not that the income tax position will be sustained, based upon
technical merits, upon examination by the taxing authorities. If the
income tax position is expected to meet the more likely than not criteria,
the benefit recorded in the financial statements equals the largest amount
that is greater than 50% likely to be realized upon its settlement. At
September 30, 2019 and 2018, there were no uncertain tax positions require
