

Why?

Easter Seals UCP

We Believe

Children and adults with all kinds of disabilities **can** be contributing & engaged members of their families & communities.

...That's why we provide therapy, education, personal care, social & life skills training, respite, caregiver support, camping, vocational & residential programs.

We Believe

The first 5 years in a child's life are critical. If developmental delays are identified & intervention provided early, children **can** be ready for kindergarten & beyond.

...That's why we have inclusive early intervention services & child development centers with specially trained teachers & therapists.

We Believe

Even after trauma, children struggling with emotional & behavior challenges **can** become healthy, learn & grow in a nurturing family home with the right support.

...That's why we have specially trained therapeutic foster parents, intensive family counseling & crisis support.

We Believe

Adults struggling with life-long mental illness **can** manage their recovery in the community with the right support.

...That's why we have a team of doctors, nurses, therapists & specialists providing assessment, treatment, medication management, social & life skills training, & mobile crisis management.

We Believe

People with disabilities **can** work in meaningful jobs, earn paychecks & contribute to their community if they have the right placement & support.

...That's why we provide job coaching, training & job placement.
