

Chicago Rockford International Airport Tour May 19th at 1:00 P.M.

Family Support Services and The Autism Program of Easterseals will co-host the inside guided tour of the airport, the Fire Station and the Lifeline Helicopter. This is a great opportunity to prepare your child with a disability for a trip.

The inside tour will begin with learning about check in requirements and seat belt procedures.

You will learn what the Transportation Security Administration (TSA) is and what they do during check in.

We will learn what to expect while waiting for a plane, how to get on/off a plane and how the pilot knows where to stop the plane.

There is an outside portion of the tour conducted by bus, which is wheelchair accessible.

Location: Chicago Rockford International Airport, 2 Airport Circle, Rockford, IL

Registration is required and limited to 60 people. Call Patti at 815-965-5069 x 10303 or email at:
