Over 4,500 children and their families received services.

97% of parents say they were involved in setting realistic goals for their child.

**40% of autism diagnoses** in the state of Illinois are through the **Easter Seals Autism Diagnostic Clinic**.

More than 1,100 campers enjoyed outdoor recreation experiences at Timber Pointe Outdoor Center through residential camping, Adventure Day Camp and respite programs.

100% of families say their quality of life has improved as a result of Easter Seals services.
Treatment and intervention services are based on clear statements about the skills and activities the family wants to see as a result of therapy.

95% of families report their child has made progress.

Easter Seals provides specialized therapies to help children communicate, improve their mobility, interact with others, and cope with differences.

97% of families say the staff is friendly, helpful and provide the information they need.

Therapy at Easter Seals is provided by credentialed and licensed therapists who specialize in pediatric services. During FY15 more than 30,000 hours of therapy was provided to children and their families.
We take a complete approach, working with the whole family to help children with disabilities, autism, developmental delays, and other special needs reach new milestones each and every day.

95% of families report that services were beneficial and expectations were met.

"Our daughter is so eager to come to Easter Seals. She has reached many milestones in just a few months!"

97% families report they’ve experienced reduced stress since coming to Easter Seals

Easter Seals provides exceptional services to ensure that people with disabilities and their families have equal opportunity to live, learn, work and play in their communities.
“Yesterday was a huge day for Louie. Yesterday he graduated from feeding therapy and all services at Easter Seals Central Illinois. It has been 4 years since he started feeding therapy. He had just turned one and had his 3rd surgery. He was eating stage 2 baby foods, thin baby cereals, and smooth yogurt. He was drinking from a bottle. His first goals were to pick up goldfish and put them in a bowl, and we could do about 3 before a meltdown.

Two years later, he could pick up those goldfish, even touch is face with them, but they would never be near his mouth. Two years ago I believed we were going to blend everything Louie ate for the rest of his life. I figured he would survive on soups and yogurt.

Louie worked so hard. Solid food terrified him and yet every week or every other week he would go and try to touch it and try to lick it and interact with it in any safe way he could. He wanted to be able to eat and he did not give up so we did not give up on him.

His hard work and patience and persistence paid off! Today, Louie will eat all of the same things the rest of us eat. He will chew meat, vegetables, fruit, and grains of all sorts. Yes, he still has to take small bites, yes he still has to drink to help him swallow sometimes and the occasional walk or jump helps too. Tonight we will probably go out to eat (a process that used to be very uncomfortable) and will eat and enjoy it. No one will look at us like we are idiots for bringing a jar of baby food to a restaurant for a 2 year old to eat. We won’t have to ask for the chunks to be strained out of his soup. He won’t have to eat only mashed potatoes with lots of gravy unless he wants to.

I cannot say enough about how proud we are of him. Special thanks to all his therapists and friends who have helped us along the way.” – Karen, Louie’s mom

Heart of Illinois United Way
Easter Seals is the most comprehensive provider of pediatric developmental services in the central Illinois region, providing specialized therapies to help children communicate, improve their mobility, interact with others, and cope with differences.

**Easter Seals Foundation of Central Illinois**

The Easter Seals Foundation of Central Illinois is an Illinois not-for-profit 509(a)(3) Supporting Organization which has, as its sole purpose, to support an existing 501(c)(3) organization, namely the sole member Easter Seals.

The Easter Seals Foundation of Central Illinois is organized exclusively to support Easter Seals Central Illinois to ensure the long-term sustainability of the Easter Seals mission through the growth, development, administration, and oversight of the Endowment Fund.

At Easter Seals we believe that our community is stronger when we build on the abilities of all our neighbors. That’s why today and everyday we work as champions for ability.

Working in partnership with our children, families and community, we offer guidance, provide support and inspire action so that everyone can reach for and realize their full potential.
Timber Pointe Outdoor Center, located on Lake Bloomington, is the premier resource in the state of Illinois for providing specialized outdoor recreational, experiential and family programs for children and adults in a fun, safe and accessible environment.

The Marina area, a popular place for campers, is being transformed with the construction of a seawall fronting a state of the art boardwalk and dock complex. The dock complex includes a sand beach, shaded fishing areas, and specially designed canoe and kayak launch lifts and covered boat lifts. These renovations will make marina-based activities accessible to all children and adults with disabilities and other special needs.

The first phase of the Marina Project will be complete in time for the 2016 summer camp season.

The Timber Pointe Outdoor Center Marina Project is funded through the generosity of the Robert J. Woods and Joan Jarrett Woods through the creation of The Woods Foundation in partnership with The Timber Pointe Charitable Foundation and Easter Seals Central Illinois.

The dock complex is nearing completion. Decking will be laid and the canopy installed Spring 2016.

Timber Pointe Outdoor Center offers programs throughout the year. Summer programming, in particular, gives way to many opportunities for children and adults. Summer programs include Easter Seals residential and day programs, Adventure Day Camp, contracted partner groups and rental groups. Integrated programming for typically-developing siblings and peers is also offered.

Each session includes traditional camp activities such as swimming, fishing, hiking, canoeing, a pontoon boat ride, arts & crafts, target sports, barnyard animals, high ropes, zip-line and horseback riding. The Timber Pointe staff strives to create an experience that is inclusive, stimulating and educational while providing opportunities that might otherwise seem impossible due to physical limitations, developmental delays or illnesses.
Watch “Cinderella” by Gretchen Meyer, Easter Seals Physical Therapist.
