

# Who is a Stranger?

Lauren Gray, COTA

---

## What is a Stranger?

A stranger does not always look like a bad guy or villain.

A stranger is someone that we do not know.

A stranger may look like you or like me.

---

## All Strangers are Not Bad

It can be hard to tell if someone is a good stranger or a bad stranger by looking at them.

---

Here are the strangers they we can trust:  
Policeman, Doctor, Dentist, Fireman.

## Identify Unsafe Places

Any location that's isolated like the woods, parking lots, or dark street ways should not be entered alone.

---

## How to Act Around a Stranger

If I am around a stranger I should keep my body to myself and stay in my personal space bubble.

I should not climb into strangers' laps.

---

I should not touch strangers' food.

## Adults Asking for Help

It's important to know that adults will not ask a child for help.

---

Some danger signs include a grown-up pulling up next to them in car asking for directions or an adult trying to ask their help in search of a lost pet or child.

## It's Okay to Say No

It is okay to say “No!” if someone tries to touch or grab you and you do not know them.

This is an important part to keeping you safe.

---

## Stay Safe

I should always stay with my parent or an adult that I know and trust.

---

## Create a Family Secret Codeword

Select an easy to remember password like, “Oooga Booga.”

If anyone who tries to offer you a ride home (“Your parents told me to come get you”) or claims there’s an emergency (“Hurry come with me your grandpa is in the hospital!”) must know the secret codeword.

---

If the person doesn’t know the codeword, he or she can’t be trusted.

When I choose to follow these rules  
I will remain safe and my parents will be  
proud of me!

---
