About our Organization

Easterseals Colorado Disability Benefits Services (DBS) is a program established to assist individuals with disabilities and chronic health conditions to access Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI). Our program's mission is to provide comprehensive disability services, including disability application assistance, training, employment benefits counseling, and individual placement and support (IPS) services for disabled individuals who want to work.

The Purpose of our Webinars

Our organization has seen the need for Social Security Administration (SSA) disability application assistance throughout the State of Colorado, but we know that individuals all over the U.S. struggle with completing these applications. These webinars are designed to help families better understand the SSA's federal disability programs and navigate the disability application process anywhere in the U.S. We have chosen 6 topics that are relevant to most individuals and families. You can find a brief description of each topic on the next page.

Who are Candidates for this Training?

Individuals applying for SSI/SSDI, families of individuals with disabilities, clinicians, case managers, advocates, and staff who provide direct services to individuals who are in need of accessing SSI/SSDI disability benefits.

What's the Cost?

For individuals, \$20 per webinar or \$100 for all 6 webinars. We also offer group pricing if an organization would like to make this available to a group of clients and/or their staff. Please contact Byron Kish at bkish@eastersealscolorado.org for more information.
