

Our summer staff and volunteers are a group of enthusiastic individuals who strive to make a difference! Some come from a background of special education, social work, or therapeutic recreation. Others have little to no previous experience working with individuals with disabilities – and that’s okay. We will train you on everything you need to know to perform your role well.

Summer staff members are responsible for creating lasting memories, encouraging inclusion, and engaging participants in adaptive activities. Our team is comprised of compassionate counselors who assist with lifting, repositioning, meals, and all other personal care needs. Through hands-on trainings and connections, the skills you learn at Rocky Mountain Village will help you navigate life.

Are you looking for a great community and a meaningful, impactful job? Let’s talk about working at Rocky Mountain Village as part of our camp team.
