

How Easterseals can help your child

When your child comes to Easterseals, he/she will receive a thorough evaluation by a team of therapists that may include Physical Therapists, Occupational Therapists, Speech-Language Pathologists and Early Childhood Educators.

Together, they will work to create an integrated plan, unique to your child's individual needs, that will help improve your child's immediate and future successes.

Our staff's knowledge, medical expertise and experience in child development is one reason why Easterseals is the largest provider of children's therapy services in Delaware and on Maryland's Eastern Shore. Their excellence is based on extensive education in their individual disciplines and years of clinical experience.

Easterseals has the experience and talent to guide you and your child through every step of child development from infancy to adolescence.

Trust the Best in Children's Therapy

Do you wonder if your child needs help in meeting critical developmental milestones which are vital to future learning?

Easterseals is a trusted provider of children's therapy. We specialize in treating children ages birth to eighteen years with a variety of challenges and diagnoses, including Developmental Delays, Autism Spectrum Disorders, Down Syndrome, Cerebral Palsy, Sensory Processing Disorders, Speech-Language Delay, feeding and swallowing difficulties and more.

Easterseals creates solutions
that produce **big
smiles**

The Easterseals team of experts is motivated by your child's success!
We specialize in meeting the needs of children and their families through creative playful activities.

Physical Therapy

Are you concerned about your child's ability to sit, crawl, walk or jump? Our pediatric Physical Therapists focus on improving strength, balance, coordination and mobility so children can successfully explore their environment and play with friends and family.

Occupational Therapy

Are you concerned with how your child uses their hands to play and grasp objects or how they react to sights, sounds, touch or textures? Our pediatric Occupational Therapists work to enhance play skills, fine motor skills, self-care skills and sensory processing by developing an individualized plan to meet your child's needs.

Speech-Language Pathology

Are you worried that your child's speech isn't developing as it should be? Our pediatric Speech-Language Pathologists promote your child's speech and language using developmentally appropriate tools. We encourage interaction to enhance language and social skills.

Feeding Therapy

Does your child have challenges when eating, or difficulty with chewing or swallowing? Our specialized therapists can help children learn to eat a variety of foods, using techniques designed to meet your child's needs including: sensory, motor or behavioral approaches.

Early Childhood Education

Are your child's behaviors, social or play skills of concern? Our Early Childhood Educators work with parents and children, birth to 3 years, to develop their ability to learn and play.

Don't delay!
If you suspect that your child needs help,
