## THE BILL ADAMI FUND FOR INNOVATION

*"In independence, there is dignity." – Bill Adami*

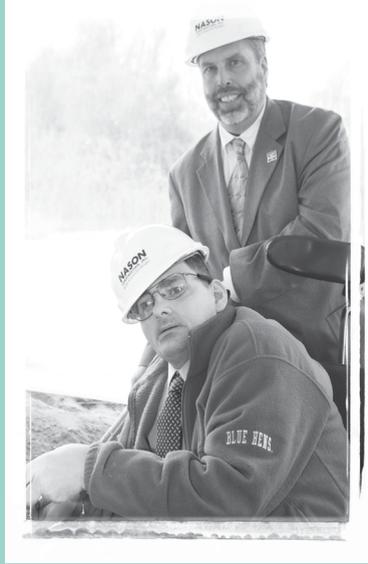

## Innovative Services for Independent Lives

HONORING THE MEMORY OF A  
BELOVED LEADER IN DISABILITY ADVOCACY

## BILL ADAMI

Bill Adami dedicated his life to improving the lives of individuals with disabilities. As a 14-year-old volunteer at a state institution for people with significant intellectual disabilities, Bill looked at the inhumane treatment at that time and it forged his passionate commitment to ensure that people with disabilities would be treated with dignity and respect.

As President and CEO of Easter Seals Delaware & Maryland's Eastern Shore, Bill's vision was to provide services for people with disabilities allowing the highest level of independence. With his untimely passing, a fund bearing his name honors his legacy of leadership and innovation at Easter Seals. During his 22 years with Easter Seals, Bill's lifelong commitment to people with disabilities touched enumerable lives, and his sense of humor and kind nature were abundantly clear to everyone.

Pictured left is Bill with longtime participant and friend, Roger, at the 2008 groundbreaking in New Castle.

## THE BILL ADAMI FUND FOR INNOVATION WILL MAKE INNOVATIVE SOLUTIONS POSSIBLE

### INDEPENDENCE

In the Easter Seals Resource and Technology Demonstration Center, we can help people living with paralysis access computers through infrared technology, help aging adults stay in their home, or open up the world to children with autism through the latest communication technology. We need your support to ensure innovative solutions are available when families need them.

### INCLUSION

Easter Seals Children's Therapy Services staffs 50 therapists trained in the most cutting-edge approach to intervention for young children with autism. Support from The Bill Adami Fund for Innovation will help our professionals remain at the top of their field.

### OPPORTUNITY

The Bill Adami Fund for Innovation will make it possible to pilot new programs to keep expanding the world of possibilities for people with disabilities, such as a program currently under development to provide summer work internships for high school students with intellectual disabilities.
