

FYI

Finance Your Independence:

DELAWARE ASSISTIVE TECHNOLOGY

LOAN PROGRAM

What do YOU need to live independently?

- ✓ A HEARING AID?
- ✓ A SPEAKING DEVICE?
- ✓ AN ACCESSIBLE VAN?

The **FYI: Finance Your Independence** program is the place to turn when you need to purchase assistive technology.

Assistive Technology can mean the difference between struggling to perform everyday tasks and living a full and independent life!

BUT, how will you pay for.....

- Modifications to your home to make it accessible?
- An adapted vehicle to transport your child?
- Hearing aids for your parent?

Easter Seals can help!

The Easter Seals **FYI: Finance Your Independence** program* can help you affordably acquire the equipment you need to live safely and independently by helping you secure a lower interest loan through our lending partners.

Our case manager will:

- Help you find alternative funding for which you may be eligible.
- Assist you in the loan process with one of our lending partners.
- Provide follow up and support throughout the life of the loan.

The FYI program is open to Delaware residents of all ages with disabilities of all types; seniors with age-related functional limitations; and family members caring for someone with a disability.

*FYI: Finance Your Independence program is administered in conjunction with the Delaware Division of Vocational Rehabilitation.
