Matthew R. Baud, MS, CCC-SLP**

## Date & Location:

Friday, March 18th, 2022  
through  
Saturday, March 19th, 2022

AT:

**Easterseals DuPage &  
Fox Valley**

**Format:**

**Hybrid: Webinar and In-Person**

## CONFERENCE DESCRIPTION:

Evidence-based research supports the use of partner-augmented input (PAI), also known as aided language modeling, as an intervention strategy for individuals who use augmentative and alternative communication (AAC). There are multiple benefits of modeling AAC use, but how can this be done effectively across a child's many environments? *All* of a child's communication partners must be taught how to model on the child's speech generating device (SGD) to create an immersion environment for learning the new language!

Day 1 (required\*) is an introductory SMoRRES™ level 1 session appropriate for all communication partners including speech-language pathologists, teachers, instructional assistants, and other professionals who work with children using AAC, as well as for parents and caregivers of children using AAC. Participants will set goals for the training, learn why modeling is so important, verbally rehearse the steps to successful modeling, see videos of modeling in the classroom and home, and practice modeling. NOTE: A communication device, app, emulation software, book or board is required to participate in a variety of interactive, hands-on training activities designed for learning or improving modeling skills.

Day 2 (optional) is an intermediate, SMoRRES™ level 2 session organized to teach participants the 8-step, evidence-based instructional program used to introduce participants to modeling on Day 1. This instructional program can be used to teach adult communication partners such as parents and educators to model on their children's or students' devices across environments. Participants will learn the steps involved in implementing the communication partner training program and will be provided with a DVD and a printed manual to enable them to employ the program in their own practices.

*\* Day 1 is a prerequisite for day 2. Participants who have already attended a full-day SMoRRES™ Level 1 Training (see below for a list of qualifying workshops) may waive registration for day 1 by submitting a course completion certificate.*

SMoRRES™ Level 1 Trainings:

- Ingredients to Successful Modeling: SMoRRES™ and Partner-Augmented
- Partner-Augmented Input: Modeling AAC in the Classroom.
- Communication Partner Instruction in Partner-Augmented Input: 8 Steps to Success Day 1

## TARGET AUDIENCE:

Day 1 is appropriate for speech-language pathologists, Occupational therapists, teachers, instructional assistants, and other professionals who work with children using AAC, as well as for parents and caregivers of children using AAC.

Day 2 is appropriate for those with basic AAC Knowledge and skills who wish to learn more about teaching others.

**\*Day 1 is REQUIRED in order to attend Day 2\***
