Together we can make a difference for children and their families living with disabilities and other special needs in our community.

Why Partner with Easter Seals?

Easter Seals counts on its corporate partners to help them provide high quality and critical services to children living with disabilities and their families – living right here in our community. Disability knows no boundaries – our families are your families – your employees, neighbors, friends and relatives.

We have developed several valuable paths your involvement can take, in order to make it easy for you to find what works. We understand that not only are you eager to help important community causes, you are also working to meet company goals and objectives. Whether your focus is to make sure your employees are engaged, brand exposure is increased, or a specific program is supported, we have something to offer.
