

February Newsletter Leap Program

Easterseals Naples

13 of our participants submitted nature themed artwork in the second annual nature art contest by Additional Needs Inc. at Naples Botanical Gardens on Saturday January 15th, 2022.

We have been able to continue developing our adaptive digital programming courtesy of the Schulze Family Foundation.

Our employment site outings last month were Holiday Inn Club Vacations and Goodwill. Our community outings last month were Adaptive Sailing at Sugden Park, Naples Botanical Gardens, and Eagle Lake Park to play basketball.

We have openings in our summer STEAM Day Camp. This school aged program will teach a variety of adaptive programming skills such as Culinary, Digital Crafting, Camera Use, Photo Editing, 3D printing, Virtual Reality, and Community Outings.

We are also enrolling for our Adult Day Training LEAP Program.

Please reach for more information and to tour the facility.

Second Annual Art Contest through Additional Needs Inc. at Naples Botanical Gardens

*Our participants have really enjoyed using the
virtual reality system to learn new skills.*
