

# Come and PLAY with us!!

## Play and Language for Autistic Youngsters

The PLAY Project™ is a parent-implemented, intensive early intervention for young children with autism that is evidence based and built on therapist-guided parent/child interaction!

### Young Matters - Ages 2-6!

Start early - during rapid brain growth

Developed by Dr. Rick Solomon, based on DIR (Developmental Individualized Relationship based) theory of Dr. Stanley Greenspan

Adheres to recommendations of the National Academy of Sciences

### Easterseals has Statewide Funding- Enroll Today!

We are thrilled to offer this 10-month Autism Intervention to families across the State of Florida **at LITTLE to NO COST!**

Children with a diagnosis of Autism, or highly suspect, and between the ages of 2-6 years can take advantage of this intervention.

**Enrollment is limited, Call NOW to reserve your SPOT!**
