INTRODUCTION

The objective of Easterseals Louisiana's (ESL) Accessibility Plan is to provide all ESL participants, employees and stakeholders accessible services and remove any identified accessibility barriers. As an organization, ESL complies with the American Disabilities Act of 1990 and believes that services should be readily accessible to all persons. The organization continuously works towards increasing accessibility by identifying and removing all architectural, environmental, attitudinal, financial, communication, transportation, and any other barriers not listed that might limit or prevent access to services.

ESL's Accessibility Plan describes the organizations commitment to accessibility, such that all persons can have the opportunity to live independently in a barrier free environment. ESL has and continues to remove barriers for persons served. This plan identifies actions that have been taken to remove barriers and action items to be completed during 2020/2021 fiscal year.

Monitoring Process

The ESL Safety Committee will review the plan throughout the year and ensure that any barriers to accessing services are identified, addressed, and documented as an action item with assigned timelines. Documentation on status and changes of identified barriers will be updated and monitored on an ongoing basis.

Communication of the Plan

Copies of the Accessibility Plan will be made available to the management team, Board of Directors and upon request to participants, staff, visitors, and the community. This plan will also be available on ESL's website.
