

# TEXAS STAR ACADEMY

AGE-SPECIFIC PROGRAMS\*

Texas Star Academy enthusiastically promotes an opportunity for children with diverse abilities to learn and grow in a fun place together.

## Doggies Den (18-36 Months)

Our staff provides toddlers warm, nurturing care and uses thematic activities to promote socialization and exploration in a naturalistic environment.

## Turtle Cove (3-5 Years)

Children participate in more hands-on activities that build self-image, independence, and a child's ability to make positive choices in a fun, engaging environment.

## Armadillo's Dugout (4-6 Years)

We prepare children for a successful transition from preschool to kindergarten with emphasis on bettering their social, academic and problem-solving skills, while building their life-long love of learning alongside their friends.

\*Children are placed in groups according to age or developmental age, and will be moved to the next age group as openings become available and as appropriate.

## OUR STORY

Since 1999, Texas Star Academy provides high-quality care for children of all abilities. Each child learns from nurturing teachers in our fun and engaging environment. From learning nursery rhymes to their 123's, or learning how to get along and share with other children, we prepare your child for a successful transition into Kindergarten.

In 2010, Texas Star Academy became a part of Easter Seals North Texas—a non-profit organization serving children and adults with disabilities and other special needs locally since 1939. Every year Easter Seals North Texas provides services for more than 4,000 individuals and their families so they can live, learn, work and play in our communities.

**Today is when your child's story begins at Texas Star Academy. Call or email us to get started!**

# THE BEST CARE FOR YOUR BEST KID

Easter Seals has its roots in serving children nationally since 1919, and locally in North Texas since 1939. Our association with children and our reputation for quality and innovation continue to this day at our early childhood center, Texas Star Academy.

It is our belief that each child is unique and has something special to offer. We provide the only fully inclusive preschool program in Texas with supervision from a Board Certified Behavior Analyst. It is a certified replication of the only nationally recognized Incidental Teaching and National Association for the Education of Young Children model, the Walden Early Childhood Center at Emory University in Atlanta.

## Look to Texas Star Academy for:

- Top-quality, inclusive child care
- A safe and nurturing environment
- State-of-the-art tools and programs
- Individualized learning plans
- Highly-trained teachers
- Low child-teacher ratios
- Active family-centered partnerships

## Understanding "Inclusive" Care

The practice of inclusive child care refers to the placement of children of all physical, emotional and academic abilities in the same learning environment. Inclusive child care teaches typically-developing children to work with individuals of all abilities and to form natural friendships. Plus, it teaches them problem-solving skills, to recognize differences as ordinary, and how to communicate with those who communicate differently.

# LEARN. PLAY. GROW.

Preschool age children of all abilities enjoy the same activities and relate to one another in a similar fashion. Our goal at Texas Star Academy is to have a significant impact and better the lives of children of all abilities! That's why our staff provides developmentally appropriate curriculum, experiences and activities, as well as therapeutic intervention for those in need of such services.

All children will have plenty of time to work out their muscles during outside and sports time, and are encouraged to use their imaginations during dramatic play and art activities. Plus, throughout a child's day there are group activities and engaging individual challenges to help improve their language and social skills.

## Specialized Services Offered

### Kindergarten Preparation

Kindergarten preparation provides children with academic skills in order to prepare them for a successful kindergarten year.

### ABA Therapy

Applied Behavior Analysis (ABA) Therapy provides intense treatment in language, engagement and social skills under the supervision of a Board Certified Behavior Analyst.

### Speech-Language Therapy

Speech-Language Therapy provides testing and individualized therapy in areas related to communication. Services are provided by a licensed Speech-Language Pathologist.
