ESSC Medical Plans

2023-2024

Important Definitions

These terms will help you as you read through this guide

Deductible

This is the amount you have to pay out of pocket before the plan starts to pay.

Coinsurance

Your share of the costs of a covered health care service, calculated as a percent (for example, 10%). Coinsurance is the amount you will pay for health care services after you meet the deductible.

Embedded Family Deductible

A single member of a family doesn't have to meet the full family deductible in order for co-insurance to kick in. They must individually meet the deductible.

In-network

Providers who contract with the insurance companies to provide services to the insured (associates). Providers offer services at a reduced cost to the insured (associates).

Out-of-network

Health care provider or facility that does not have a contract with an insurance company. Services received by an out-of-network provider are typically more expensive than services provided by an in-network provider. Associates enrolled in UnitedHealthcare HDHP or UnitedHealthcare PPO can access health services from providers in-network and out-of-network.

Health Plans

UnitedHealthcare PPO

UnitedHealthcare PPO Plan (UHC PPO) is a Preferred Provider Plan. This plan has higher bi-weekly premiums than our other plans, but also lower annual deductibles. You may visit any doctor or specialist you choose, in-network or out-of-network, and these services will be covered in accordance with the plan terms.

Services that qualify as either “preventive care services” or “preventive care prescriptions” received through in-network providers are covered at 100% by the plan. For in-network office visits, you pay a copayment. For other care, you pay 100% of expenses until you meet the deductible before the plan starts paying. If you cover dependents on your plan, each person must meet the individual deductible until the family deductible is met. You may meet the family deductible by any combination of covered medical expenses you and your covered family members incur.

NOTE:

Check to see if your doctor is in-network using UHC’s provider search tool at:
www.whyuhc.com/selectpluswest

UnitedHealthcare HMO

The HMO plan only allows services rendered through in-network providers. You will not have coverage for services rendered out of network.

You will be auto assigned a primary care physician (PCP). Your PCP will act as a gatekeeper through the healthcare system and coordinate additional care for you. Your ID card will have your PCP listed. You can switch your PCP by calling member services.

NOTE:

Check to see if your doctor is in-network using UHC’s provider search tool at:
www.whyuhc.com/casignaturevalue

Kaiser HMO

You must use healthcare providers and facilities in the Kaiser network only. You choose the primary care physician (PCP) who will refer you to specialists if necessary. Most services require a copay and other services require you to meet a deductible.

UnitedHealthcare High Deductible Health Plan with Health Savings Account

The High Deductible Health plan with UnitedHealthcare (UHC HDHP) is a Preferred Provider Plan (PPO) that includes a health savings account (HSA). This plan has lower bi-weekly premiums than our other plans, but also higher annual deductibles. You may visit any doctor or specialist you choose, in-or out-of-network, and these services will be covered in accordance with the plan terms.

Services that qualify as either “preventive care services” or “preventive care prescriptions” received through in-network providers are covered at 100% by the plan. Other services, including prescription drugs, are subject to your medical plan deductible. Review plan comparison chart for more information.

How the Deductible Works

The family deductible works different from the standard PPO plan. “Family coverage” is any coverage with more than only you (i.e., employee + children or spouse/partner). You must meet the family deductible before the plan starts paying any benefits. Remember, until you meet the deductible, you pay 100% of the cost of most healthcare and prescription drugs. If an individual within the family coverage were to meet the “individual deductible” then the plan starts sharing in the cost for that individual. This is known as an embedded deductible.

Once you meet the family in-network deductible, the plan’s coinsurance kicks in; you will pay 20% for all covered in-network medical services and most prescription drugs until you reach the out-of-network maximum. Once you hit that, the plan will pay 100% of covered care for the rest of the year.

Example

Barbara has medical coverage for herself, her spouse, and their two children. They have met the \$5,600 in-network family deductible. As a result, the insurance carrier will pay 80% of covered care and prescriptions drugs for the family until the out-of-pocket maximum is reached. This is called coinsurance. The cost sharing that Barbara is responsible for can be paid or reimbursed from Barbara’s HSA.

Participant	Covered Expenses
Barbara	\$2,000
Spouse	\$4,500
Child 1	\$1,000
Child 2	\$500
Total	\$8,000

Health Savings Account (HSA)

The HSA account is administered by Optum Bank. When you enroll in the UnitedHealthcare HDHP (UHC HDHP), ESSC will automatically open an accompanying HSA account, which is a tax-deferred account for paying qualified health care expenses.

Unused funds roll over year to year. Unlike an FSA, there is no “use it or lose it” penalty. The HSA is a lot like a regular bank account, but the interest your HSA earns is tax-free. If you leave the company, you can take the HSA with you because the account belongs to you. The HSA is not an ESSC sponsored benefit; it’s an account you own.

	ESSC Contributions	ESSC Annual Contributions
Associate Only	\$38.46 per paycheck	\$1,000 per year
Associate + one or more dependents	\$76.92 per paycheck	\$2,000 per year

HSA Contributions

ESSC contributes money into your HSA account; you also have the option to contribute your own money into your HSA account. Your contributions are taken out of your paycheck before federal taxes are calculated on your income, so you pay less income taxes. You can start, stop and change your contributions during the year.

	2023 HSA IRS Limit*
Associate Only	\$3,850 per year
Associate + one or more dependents	\$7,750 per year

DID YOU KNOW?

You can use the HSA on healthcare for yourself and your dependents. Review the IRS rules on HSAs for more details. www.irs.gov (Publication 969).

*You can make an additional \$1,000 annual contribution if you are age 55 or older.

Save tax-free money to pay health and dependent care expenses.

Flexible Spending Account(s)

Flexible spending accounts (FSAs) allow you to set aside money on a pre-tax basis to pay eligible healthcare and dependent day care expenses. You must choose a contribution amount during the enrollment period to participate in the FSA; the amount you contributed last year does not automatically roll over.

We offer two types of FSAs:

- Healthcare FSA
- Dependent Care FSA

You determine how much to contribute to each account. Your contributions are deducted on a before-tax basis (subject to IRS). FSAs are administered by Optum Bank.

You can use the FSA on healthcare for yourself and your dependents. Review the IRS rules on FSAs for more details. www.irs.gov (Publication 502).

USE IT OR LOSE IT!

You have from July 1, 2023 - June 30, 2024 to use your FSA funds. Make sure you plan your contributions carefully because you will lose any unused funds.

Healthcare FSA

Annual contributions of up to \$3,050 per plan year. You receive the entire amount at the beginning of the plan year. You may use funds to pay medical and dental plan deductibles, copays and coinsurance; prescription drugs; vision care expenses, including contacts; orthodontics; medical equipment and more. If you are enrolled in the High Deductible Health Plan with UnitedHealthcare, you are not eligible to enroll in the Healthcare FSA.

Dependent Care FSA

Annual contributions of up to \$5,000 per plan year. Funds are available as they accumulate in your account. If you work and have an eligible child that needs care during the day, the Dependent Care FSA may be right for you. The child(ren) have to be under the age of 13. The IRS limits the total amount of money you can contribute to dependent care to \$5,000 each year for married couples filing jointly, unmarried couples and single individuals and \$2,500 if you are married and filing separately.

NOTE:

Consult your tax advisor on whether you should enroll in the Dependent Care FSA or take advantage of the federal dependent care tax credit.

Dental Benefits

Keep your smile ready for any occasion.

There are two dental plan options to choose from:

UnitedHealthcare Dental PPO

With the Dental PPO plan, you pay more out of each paycheck, but you will have the flexibility to see in-network or out-of-network providers. When you see in-network providers, you will pay less out of your own pocket. If you can, it's best to find providers in the network. This plan has an annual deductible and calendar year maximum.

To locate an in-network provider under the Dental PPO plan, visit www.uhc.com/find-a-doctor
Network Name: National Options PPO 30

UnitedHealthcare Dental HMO

With the Dental HMO plan, you may see any network general dentist you want. This plan doesn't require you to pick a primary care dentist, but it is helpful to have one. You will have a wide range of local network dentists to choose from. If you see a dentist that is not in the network, you will not have coverage. This plan does not have an annual deductible. Instead there are fixed copays for non-preventive services. There are no annual maximum benefits.

To locate an in-network provider under the Dental HMO plan, visit www.uhc.com/find-a-doctor

Vision Benefits

...to help you see everything as it is.

VSP provides the vision plan. You and your family are covered for eye exams, lenses once every 12 months and frames once every 24 months.

If you use an in-network provider, your plan covers your eye exam and glasses (frames and lenses), or contact lenses. You may also be eligible for discounts on additional products or services you buy during the same visit or even later in the same year.

If you use an out-of-network provider, your plan may or may not cover the full cost of exam, and your glasses or contact lens allowance will vary by selection.

You will find a list of in-network providers at <https://www.vsp.com>.

HOW LIFE INSURANCE WORKS

Term Life Insurance provides affordable protection for a specific period of time—though, in some cases, coverage can be extended past the original term period. Most people buy it during their working years, so if they die, their benefit can help protect their loved ones from the financial impact of lost wages and manage their financial needs.

*At age 70, term life insurance coverage decreases to 65% of the amount and 50% at age 75

Voluntary Accident Plan

*You can't always avoid accidents—
but you can be prepared*

Even with good insurance, injuries can set your finances back in a big way. And when you're hurt, the last thing you want to worry about is out-of-pocket expenses you're not prepared to pay. Accident Insurance can help by paying benefits directly to you if you get treatment for a covered accident. That way, your injury doesn't have to derail your financial security.

How Accident Insurance Works

If you or covered family members are injured in a covered accident, Accident Insurance provides you a lump-sum amount to help take care of unexpected costs and protect your finances. Here's how it works:

- A set amount is payable directly to you, based on the type of injury you or a covered family member has, the treatment needed and the coverage you elected.
- You can use the payment as you see fit—to help pay for doctor visits, ambulance fees, hospital bills and other out-of-pocket expenses your health insurance doesn't cover.
- To help promote a healthy lifestyle, plans may also pay a benefit when you get a covered health screening test.
- You can file claims online and easily track the status of your claim.
- With the Voluntary Accident Plan, you pay 100% of the premiums with after-tax dollars. And because the premiums are deducted after tax, any benefits the plan pays to you are tax free.

Voluntary Hospital Plan

Reduce the financial strain of a hospital stay

Even if you have medical insurance, a trip to the hospital can leave you with significant unexpected expenses, like co-payments, deductibles and other out-of-pocket costs. Unum Hospital Insurance can help, by providing payments you can use to manage your expenses during a stressful time.

How Hospital Indemnity Insurance works

An unexpected hospitalization can drain a family's savings. But Hospital Insurance can pay a lump sum directly to you to cover some of the expenses you're not prepared for.

- Hospital Insurance pays a set amount for a hospital admission, as well as for other items covered by your plan, such as emergency room treatment and daily hospital confinement.
- With Hospital Insurance, you pay 100% of the premiums with after tax dollars. And because the premiums are deducted after tax, any benefits the plan pays to you are tax free.

Voluntary Critical Illness Plan

A serious illness can threaten more than your health

When a serious illness strikes, your finances can be endangered, along with your health. Even if you have health insurance, the out-of-pocket costs of treatment, hospitalization and missing work can add up fast. Critical Illness Insurance can help you weather a crisis without draining your savings. If you're diagnosed with a covered illness like cancer, stroke, heart attack or another condition, your plan can pay a lump-sum benefit directly to you, to use however you choose.

The plan also provides you with an extra \$50 annual benefit per calendar year on top of your total benefit amount when you see your physician for eligible health screenings or prevention measures.

How Critical Illness Insurance Works

If you're diagnosed with a critical illness, you can file a claim to begin the benefits process. Depending on the specifics of your plan, Critical Illness Insurance can provide a lump-sum benefit for diagnoses such as:

- Cancer
- Heart attack
- Coronary artery disease
- Stroke
- Major organ failure

To help promote a healthy lifestyle, our plans can also pay a benefit when you get a covered health screening test. With the critical illness plan, you pay 100% of the premiums with after-tax dollars. And because the premiums are deducted after tax, any benefits the plan pays to you are tax free.

Your Critical Illness Insurance Can Help Pay for:

- Deductibles, co-pays and co-insurance
- Diagnostic tests
- Transportation
- Childcare
- Whatever you choose

Please refer to the policy for complete definitions of covered conditions. [Term Life Insurance Issue Age Pricing](#)

- New hires are auto enrolled into the plan at 3%, unless you opt out.

- There is also a range of investments to choose from, including a series of target retirement funds.

For more info or to manage your account, go to www.lincolfinancial.com/retirement or call Lincoln at 800-234-3500.

Try these strategies for smarter saving!

The best time to start saving for retirement is today—and it may be easier than you think. Saving just a little extra can really add up over time. Consider these tips to help boost your savings.

Give yourself an allowance

Set a monthly limit on extras instead of pulling out that credit card. Then, instead of paying high interest debt, you can pay yourself and your future by contributing more to your retirement plan.

Meet the match

ESSC offers a matching contribution, so if you want to receive the max match from ESSC, make sure your contributions is 6% or more.

Save newly found funds

Put away new money such as a raise, bonus, or tax refund. It will go right into your retirement account before you miss it.

Company Paid Life & Accidental Death & Dismemberment Insurance

Full time associates are auto enrolled into company paid Life & Accidental Death and Dismemberment Insurance at two times your annual salary rounded up to the next higher \$1,000 up to a maximum of \$500,000. Coverage is provided by Prudential.

Benefits will reduce to 65% at age 65, reduce to 50% at age 70 and terminate at retirement.

Group Term Life Insurance

If you have company-provided employee life insurance coverage of more than \$50,000, the IRS requires that the fair market value of premium above \$50,000 be treated as taxable income. Taxable income is shown on your paystub as "Group Term Life."

How Life and AD&D works

Accidental Death & Dismemberment

AD&D insurance pays a benefit if you die as a result of an accident.

It also pays you a predetermined benefit if you lose, by accident, severed limbs, fingers, or other body parts. ESSC provides this benefit to you at no cost.

You will be automatically enrolled in the company paid AD&D insurance plan. As you continue your career with ESSC and your salary changes over time, so does your AD&D benefit amount.

Company-Paid Life Insurance

Basic Life insurance pays a benefit to your beneficiaries upon your death. Up to 100% death benefit (not to exceed \$250,000) may be advanced to the insured who is diagnosed with a terminal illness (life expectancy of 12 months or less).

CHOOSING YOUR BENEFICIARIES

Choosing who will receive your survivor benefits for life insurance, AD&D, and 401(k) is an important decision.

You're required to name your beneficiaries when you enroll. After your first enrollment, you should periodically review your beneficiary elections to make sure their information is up to date.

You may change beneficiaries at any time.

Company-Paid Long Term Disability Insurance

The protection you need and want

Only 48% of American adults have enough savings to cover three months of living expenses in the event they are not earning any income.* For these employees, even a minor illness can cause financial hardship and a serious health problem or injury could be financially devastating. Easterseals provides Long Term Disability (LTD) Insurance to Full time associates at **no cost**.

Full time associates are automatically enrolled into basic LTD coverage. LTD coverage usually begins where Short Term Disability coverage leaves off, providing benefits for covered illnesses or injuries that have longer recovery periods.

LTD pays benefits of 66.67% of your monthly earnings to a maximum benefit of \$15,000 a month. There is a 90-day waiting period that must be satisfied before you are eligible to receive the benefit.

If you are disabled prior to age 60, benefits will continue until age 65 as long as you remain disabled. If you become disabled after age 60, your benefits will continue until Social Security Normal Retirement age as long as you remain disabled.
