What is New Visions for Families?

New Visions for Families is a comprehensive program offered by Easter Seals Blake Foundation that provides an array of early childhood behavioral health services that support healthy relationships between very young children and their parents/care-givers.

“Call it a clan, call it a network, call it a tribe, call it a family. Whatever you call it, whoever you are, you need one.”
-Jane Howard

Our goal is to support families to create a new vision for themselves as a family and assist them in reaching their dreams.
New Visions Services Include:

- Comprehensive mental health and developmental assessments for young children ages birth through eight years
- Parent-Child Relationship Assessment and Therapy for young children and their families
- Parenting support, education, and coaching
- Children’s skill-building and parent education groups
- Urgent Response, assessment and intervention for children birth to five in the child welfare system
- Case management, child evaluation, and family counseling for families with young children exposed to domestic violence and/or impacted by trauma
- Reflective practice and reflective supervision

*New Visions serves Pima, Yuma, Pinal, Cochise, Gila, Graham, Greenlee, Santa Cruz, and La Paz counties. Every service is not available in every area.

What does early childhood mental health mean?

Infants and toddlers develop healthy social and emotional skills from their very earliest relationships with parents and primary caregivers. Consistent, predictable, and nurturing experiences help a child develop to their fullest potential and optimize brain development. Children’s earliest experiences build the foundation for lifelong learning, behavior, and physical and mental health.

“...children’s ability to recover from traumatic experiences is influenced by the quality of their attachments.”
-Amy Busch & Alecia Lieberman

Our Mission: Easter Seals Blake Foundation offers supports and services which promote healthy relationships within families and communities by assisting and encouraging individuals to grow, learn, and achieve their goals through inclusive, developmentally-appropriate education, timely assessment and intervention, and respectful, reflective partnerships.
