

Out of School Time Program

Easterseals innovative Out of School Time youth program will offer a full day program at Finland Elementary School. On the two days when students are not attending in-person learning Easterseals will provide academic help with distance learning and latchkey from 11 am to 5 pm. This program is open to students who attend West Franklin and Finland Elementary Schools. Students are required to bring their chrome books and chargers. Our team of teachers will make sure that iReady and Google Classroom assignments are attempted! We will also incorporate our latchkey components of nutritious snacks, physical activities, and social emotional learning activities throughout the day. The best part?

Thanks to the Franklin County Commissioners this program is absolutely free!
