

December 2024

Dear Friend,

Six degrees of separation are all that stand between you and any other person in the world.

I can feel that distance shrinking. Social media networks map out our mutual connections and websites help us grow our family trees. It's become easier than ever to see how we're all linked.

You share a connection to Easterseals DuPage & Fox Valley and our mission to ensure children with disabilities and their families are empowered. **Your support of the people and purpose we serve is critical.**

We're calling on you to make a donation this season. **Be the link to services for the 2,901 children and families who depend on our pediatric therapies to reach their goals.**

For uninsured and underinsured families, it can be difficult to find a therapy provider. **Your donation to Easterseals DuPage & Fox Valley helps eliminate barriers to care.** At Easterseals, families connect to comprehensive therapies, specialized clinics, expert clinicians, and one-of-a-kind services. We are the only local provider of these services, regardless of a family's insurance plan.

Help us continue to be the exception...

- when a child needs post-surgery therapies beyond what their insurance plan provides, **your donation aids their recovery.**
- when a family is turned away from other local providers that don't accept Medicaid, **your gift to Easterseals ensures they have somewhere to go.**
- when caregivers are searching for answers, **your contribution connects them to free developmental screenings and evaluations.**
- when new parents of a premature baby max out on insurance-approved visits, **your donation makes it possible for their infant's progress to continue.**

Your gift supports families through the unexpected. When you give, you're connecting children to the physical, occupational, speech-language, nutrition, audiology, and mental health therapies they need to thrive. Please donate today.

BE THE LINK

For every outcome that links back to Easterseals, there's a donor like you who helped make it happen.

Thank you for connecting to our cause,

Theresa

Theresa Forthofer
President & CEO

P.S. Your gift this season will link children with developmental delays and disabilities to the therapy services they need to thrive.

Please donate by December 31.
