

COVID-19 Protocols: Summer Camp 2021

Easterseals Camp Growing Green, Camp Lily Berks and Camp Lily Lehigh Valley will be implementing the following policies based on guidance from CDC, OSHA, ACA and ODP for summer camp operations.

Camp Pre-Screening:

- All campers will be required to fill out a prescreening log (found in CampDocs) for 10 days prior to their arrival at camp. This prescreening includes daily COVID-19 questionnaires and temperature logs.
- Anyone answering any prescreening question positively or having a fever higher than 100 degrees Fahrenheit in the 10 days prior to camp may not attend camp without a negative COVID-19 test. The test must be from not more than 24 hours prior to the start of camp.
- All campers will be required to submit a signed *COVID-19 Notice of Risk and Responsibility* before arriving at camp.
- Campers will not be allowed into camp if they have not completed the above screening (including temperature log) and signed *COVID-19 Notice of Risk and Responsibility*.

Camp Screening & Monitoring:

Health Screening Data for campers at all camps will be logged in Easterseals ClearPass app.

Camp Lily Berks & Camp Lily Lehigh Valley:

- All staff and campers will be individually screened and must pass this screening before being allowed to proceed into camp and program areas. The screening will include a health questionnaire and temperature check.
- During drop-off and pick-up, parents must wait in their vehicles. Campers will be brought out to cars by counselors. Campers will only be released to authorized parents or guardians.

Camp Growing Green:

- Upon arrival at camp on Sunday, campers will initially be screened while in their vehicles. Screenings will be done individually before any individual is allowed to proceed further into camp and program areas.
- Families will be given a scheduled time for drop-off and pick-up of their campers. We ask that only one parent or guardian accompany the camper to drop-off/pick-up. Easterseals reserves the right to limit the number of people allowed in cabins or lodging areas during drop-off.
- Families and campers must adhere to their scheduled drop-off and pick-up times. Anyone arriving early will be required to wait in their vehicle until their scheduled time.

On-Site Camp Prevention:

Building Access:

No Visitors will be allowed in camp except for those cleared by Easterseals. All visitors that are cleared by Easterseals must also complete a pre-screening questionnaire and temperature check.

Meals:

Camp Lily Berks & Camp Lily Lehigh Valley:

- Campers must bring their own lunches, packed in a disposable brown paper or plastic bag. All items in the camper's lunch should be disposable (i.e. disposable napkins, plastic utensils, etc.).
- There will be monitored and mandatory hand washing before and after meal service.
- All meals will be served outdoors in campground or program areas (weather permitting). In the event we need to eat inside, we will do so in shifts to maintain distance between campers.

Camp Growing Green:

- There will be monitored and mandatory hand washing before and after meal service.
- All meals will be served outdoors in campground or program areas. All meals will be served using disposable or one use dishes and utensils.

Social Distancing:

- All campers should bring their own personal mask(s) to wear as needed during camp.
- Attendance for each camp session will be limited.
- All off-site trips have been eliminated from the schedule.
- No unapproved visitors will be allowed in camp during camping sessions.
- Campers will be assigned cohorts during the week. Campers are to remain within these cohorts throughout the week. At times, there may be all-camp events where they may engage with other cohorts as long as social distancing standards can be met.

Sanitization:

- Handwashing and sanitizing stations will be provided in several areas, and mandatory handwashing times will be scheduled during camp programming.
- Where appropriate, sanitizing wipes will be provided to sanitize items between uses.
- Program areas, cabins and bathrooms will be sanitized daily and between each camp session.
- Masks and gloves will be required for all serving of food.
- Sanitizing procedures will be in accordance with CDC, ACA and PA health department guidelines.
- Sanitizing products will come from the CDC approved list of products to neutralize COVID-19.
- Staff will be required to attend Easterseals training on proper cleaning procedures for COVID-19.

Health Checks:

- Easterseals staff will monitor the daily screenings of campers and camp staff, and will immediately isolate and separate anyone who fails a health check.
- Anyone displaying COVID-19 symptoms or failing a health check may not return to participate in activities until they are symptom free for 72 hours without the use of medicine or antibiotics.
- In certain cases, staff or campers may need to produce a negative COVID-19 test in order to return to camp.

After Camp:

Campers will be informed if Easterseals receives a report of a positive COVID-19 test from a staff member or camper who was in attendance at the same session.
