Teaching in ROOM 9

Mr. Speed

Mrs. Forth

Many parents are desperately looking for help with teaching their kids at home due to the coronavirus. Nine Network reaches roughly 500,000 children, and we are here to help!

Nine is broadcasting daily lessons in math and literacy from teachers across the St. Louis region for Pre-K through 4th grade students.

Teaching in Room 9 airs on Channel 9 at the following times Monday-Friday:

12:30-1:00 p.m. - Reading, PreK-1st Grade
1:00-1:30 p.m. - Reading, 2nd-4th Grade
1:30-2:00 p.m. - Math, PreK-1st Grade
2:00-2:30 p.m. - Math, 2nd-4th Grade

Nine has also developed an online educational toolkit with broadcast, online, and mobile resources, as well as learning tools and tips that can be text messaged to phones. New resources and activities are added regularly.
Through our on-air lessons and the online toolkit for caregivers, The Nine Network is making an impact on our region's early learners, today and for years to come.
