FUNDRAISING

Fundraising for Easterseals will help support hundreds of local children with special healthcare needs, and for that WE THANK YOU! By raising money for Walk With Me, you will help ensure that kids with disabilities receive early intervention and the personalized care needed in order to live-out their dreams.

Working together to raise funds will make the greatest impact - and that's where we come in. We'll share our best tips and online tools to help you raise money and beat your fundraising goal by the time you're slipping into your sneakers for Walk With Me.

The biggest thing to remember in fundraising is the mission! The sooner you start sharing your "Why" story, the sooner you will see the donations come in! Follow these easy steps to make sure you meet and exceed your goal:

What Inspires You to Walk?

Personalize your "Why"

1. Personalize your website. Add a picture, a short paragraph on what you're doing, include information about yourself and if you are walking in honor of someone.
2. Promote Easterseals! All monies raised will benefit Easterseals Northeast Central Florida - who are dedicated to providing services to children in our community who need it most!
3. Put up a fundraising goal...\$500 is a great goal to start with, but there is nothing stopping you from raising more money. Set your own goal and encourage people to help you reach it!
4. Add an incentive for people to donate. Make donating a contest for your friends and family. For example: Let people know that for every \$25 they donate, they will be entered into a drawing for a great prize. Be creative, offer to bake cookies, raffle off tickets to a game you can't attend, give away a bottle of wine you've been holding onto...
5. Link your fundraising page to your social networking sites. Your webpage has some really great tools to connect your page to everything you do!
