

Guidelines for In-Home ABA Services

The following guidelines for in-home ABA services provide direction for the safe provision of services:

- 1 BI per family
- 1 family per BI
- All parties ensure
 - no fever (See [self-screening](#))
 - no illness
 - no travel outside of California or travel which included flying in the past 7 days
- [Hand hygiene](#) before, during and after sessions – at CDC recommended instances
- BI to complete all relevant COVID-19 safety training before in home sessions are scheduled
- BI not residing with anyone who is currently ill, has fever, traveled outside of California or travel which included flying in the past 7 days
- BI encouraged to change clothing upon return home from session
- BI mask/shield should be cleaned/changed after each session
- Toys and other items brought into the home should be kept to a minimum, and cleaned at the end of each session the BI
- Family to take measures to keep members who are [at-risk](#) for complications away from session area
- [Social distancing measures of 6'](#) to be maintained whenever possible
- The use of a [cloth face mask](#) or face shield, should be used for all in-person services
- If safety concerns arise the BI should contact supervisor/safety director immediately
- All staff will be asked to acknowledge a Return to In-Person Services Agreement via Relias. To view a copy ([click here](#))
- All families will be asked to sign a Return to In-Person Services Agreement ([open here](#))
