# MAILESTONE matter

As a parent, you want what's best for your child.

Because children learn and grow at different rates, monitoring your child's development can be confusing... even for the most attentive parent.

That's why Easter Seals provides valuable child development services, including free access to a comprehensive and confidential online screening tool, to help guide all parents through these crucial years.

## FIVE AREAS THAT COUNT

The first five years of development lay the foundation for a child's overall success. Monitor these five growth areas:

- ① Relationships
- ② Exploring and Learning
- ③ Communication
- ④ Playing
- ⑤ Moving
